

UFO

Verse 1

More money than you've ever seen, stacks
Towering from floor to ceiling
Should I, take a hike on these mountains of cash
Or keep burning through these rubber bands? Tell me
Have I lost my mind or is the money talking?
Drop a dime and you'll be in the ground before your coffin
My goons are crazy and erratic like the stock market
I keep a mask on and let my uzi do the talking

Chorus

In the sky
They reside
It is time, they are here
Breath in the night

For the life
For the high
See the stars
See where we lie

In the sky
We reside
At this time, we are the night

Spreading life
Through the sky

See the stars

See where we'll...

Verse 2

Clips extended all the way down to the dance floor

20 shots put him under like some propofol

If it's business then I'm bringing my associates

I put your head on the bottom of my grocery list
